

NEEDICAL AQUA

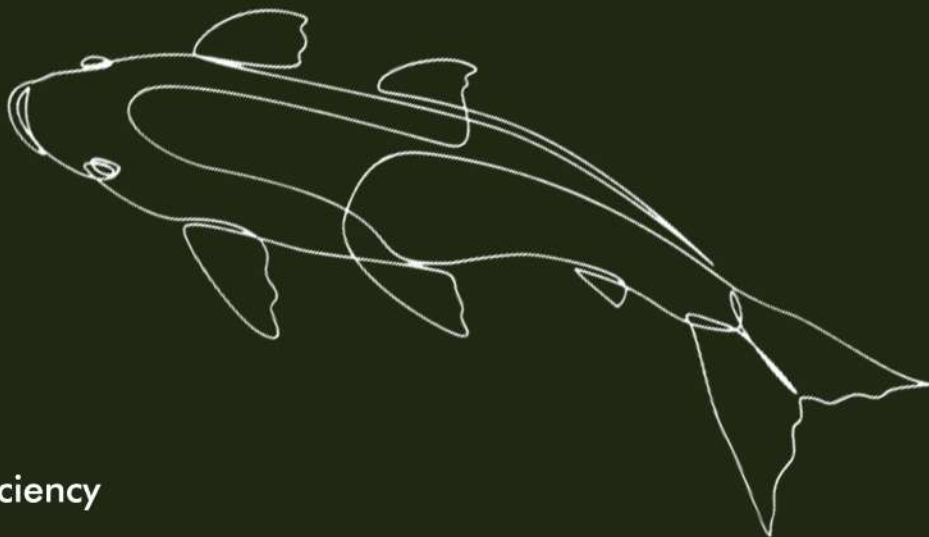

An enriched calcium supplement for Aquaculture.

Calcium is an essential element for Fish and Shrimp to grow and maintain health condition optimally. Calcium is one of the main components of bone but often overlooked factor in achieving proper growth in different stages. Growth rate is slower if calcium intake is inadequate. Where intake is severely deficit, rickets, weak skeleton or even bone fractures are possible.

Needical Aqua plays a vital role by providing sufficient bioavailable calcium through eazy metabolism which is essential part of Fish and Shrimp.

Benefits

- pH Regulation
- Egg Production
- Reducing Stress
- Enhanced Growth
- Metabolic Functions
- Bone and Scale Formation
- Immune System Support
- Prevention of Calcium Deficiency

Composition

Particulars	Specifications
